

## **AF&PA Industry Reports Available for Sale**

Copies of the following publications may be purchased by sending an e-mail to [Statistics\\_Publications@AFandPA.org](mailto:Statistics_Publications@AFandPA.org).

### **GENERAL INDUSTRY STATISTICS**

#### **(CFC1) Annual Capacity and Fiber Consumption Survey, Price: \$1,875**

This report presents aggregate U.S. capacity totals for major grades of paper, paperboard and wood pulp from a comprehensive annual survey of each U.S. mill. The report includes a summary of annual capacities; capacity by grade, both annual and at year-end with available days and daily rate; historical capacities and announced capacity changes. The report also provides industry fiber consumption by type including wood pulp and recovered paper as well as pulpwood. Included in the report is recovered paper consumption by end use, with a look at actual consumption as well as future consumption. Definitions and concepts are supplied. This report is available in PDF format.

#### **(PPB2) Annual Statistics of Paper, Paperboard and Wood Pulp, Price: \$2,875**

Found in this report is a broad range of paper industry-related statistics pertaining to production, consumption, trade, and capacity. Also available in this report, are U.S. International trade related data, fiber related data, employment, wage and productivity related data and financial and capital expenditure related data. Useful web reference, definitions and grade descriptions are also included in this report. This report is available in PDF format.

#### **(PPB1) Monthly Statistics of Paper, Paperboard and Wood Pulp, Price: \$2,500 per year**

This monthly report covers all major grades of paper, board, and pulp. Data elements include production, inventory, operating rates, recovered paper consumption, U.S. imports/exports, producer price index data, and some seasonally adjusted production data. It is ideal for analysts who want a statistical overview of the paper industry in one report. However, it is not as timely or as detailed as AF&PA's product-specific reports. This report is available in PDF and Excel Format

#### **(I4) Monthly Exports/Imports Report, Price: \$325 per year**

The year-to-date exports and imports of pulp, paper, paperboard and converted products by world regions are available in this report. Included with the shipments are the dollar value and the percent changes over same time last year. Source data are from U.S. Bureau of the Census. This report is available in PDF format.

### **CONTAINERBOARD**

#### **(CB1) U.S. Containerboard Monthly Executive Summary and Snapshot Reports, Price: \$1,500 per year**

The report provides a snapshot of pertinent containerboard data and is a summary of "U.S. Containerboard Monthly Report" listed below. The report presents total production and inventory of major containerboard groupings for current month, same month, previous year and current year-to-date. The daily average percent change supplies a quick monthly comparison reference point. This report is available in PDF format.

#### **(CB3) U.S. Containerboard Monthly Report, Price: \$3,750 per year**

Provides a wide range of relevant containerboard related data. The report contains monthly and year-to-date production for virgin and recycled types of linerboard and medium; monthly and year-to-date data on domestic and export production, operating rates, and containerboard inventories at mills. This report is available in PDF and Excel format.

#### **(CB8) U.S. Containerboard Annual Summary & Basis Weight Survey, Price: \$1,800**

A summary report, with two sections, details significant annual containerboard statistics. The first section contains annual containerboard data, including production, inventory and capacity by grade, over a 16-year period. Production by basis weight, for member companies, is reported in the second section. The basis weights data are reported by linerboard and medium over a similar time span and help to gauge the shifting in basis weights being produced. Charts provide quick visual reference. This report is available in PDF and Excel format.

**(CB9) U.S. Containerboard Annual Time Series (10 years), Price: \$1,800**

This report is used to evaluate long-term cyclical changes that are reflected in seasonally adjusted monthly industry data. Also provided is a historical time series of both adjusted and unadjusted monthly data on containerboard production and inventory data over a 10-year period. This report is available in PDF format and Excel format.

**(CB13) U.S. Containerboard Monthly Shipments Report, Price: \$750 per year**

This report is available only to purchasers of the U.S. Containerboard Monthly Report. The data are presented as shipment tons, billions of square feet and average basis weights (calculated using total pounds divided by reported shipments in thousands of square feet). This report is available in PDF format.

**(IEM2) Monthly Paperboard Exports from the United States, Price: \$475 per year**

The report presents year-to-date shipments exports for Kraft linerboard and bleached Kraft paperboard ranked by difference in shipments amounts. The dollar amounts of the shipments are available. Source data are from U.S. Bureau of the Census. This report is available in PDF format.

**KRAFT PAPER**

**(KR1) Kraft Paper Monthly Report, Price: \$2,250 per year**

Current month's and YTD shipments are presented for all major grades. Total mill and warehouse inventories for containerboard and unbleached and bleached Kraft paper. Imports of unbleached and bleached Kraft paper. Information is provided on operating rates. Charts and graphs appear within the report. This report is available in PDF and Excel format.

**(KR7) Imports of Kraft Multiwall Roll Stock and Bags, Price: \$325 per year**

Presents monthly and year-to-date imports of detailed Kraft paper grades. Imports are reported in both shorts tons and by dollar value. Data from U.S. Bureau of the Census. This report is available in PDF format.

**PAPERBOARD**

**(PB1) Solid Bleached Paperboard and Recycled Boxboard Weekly, Price: \$3,000 per year**

Provides a snapshot of the solid bleached paperboard and the recycled boxboard industry, including coated and uncoated recycled boxboard. The report details weekly production and unmade orders data as well as operating and activity rates. This report is available in PDF format.

**(PB2) Solid Bleached Paperboard, Unbleached and Recycled Boxboard Monthly, Price: \$3,000 per year**

Provides monthly production data and operating rates for bleached paperboard, unbleached and recycled boxboard. Contains monthly and YTD comparison data on domestic and export board production. The report breaks down monthly boxboard production by end-use. This report is available in PDF and Excel format.

**(PB2A) Paperboard Monthly - By Furnish, Price: \$750 per year**

Reports monthly boxboard production and operating rates by furnish: Unbleached, Solid Bleached, Semichemical, and Recycled. This report is available in PDF and Excel format.

**(PB3) Bleached Boxboard Monthly Export Shipments, Price: \$750 per year**

By grade, monthly and YTD port of embarkation and country of destination. Data from U.S. Bureau of the Census. This report is available in PDF format.

**(PB5) Boxboard Annual Statistical Summary and Time Series, Price: \$1,500**

Contains annual production of Paperboard by grades, domestic and export, over a 20-year period. Includes recycled board production and capacity by grade; monthly data by grade with seasonal adjustment analysis. This report is available in PDF format.

## **PRINTING-WRITING PAPER**

### **(PW2) Printing-Writing Monthly Report, Price: \$4,000 per year**

This report shows shipments by grade and end use, mill inventories and gross dollar value for a 13-month period. The report also contains import/export data as well as apparent demand information. The report is printed around the 20<sup>th</sup> of each month. This report is available in PDF and Excel format.

### **(PW2C) U.S. Printing-Writing Inventories, Purchases, and Consumption Overview Charts, Price: \$750 per year**

These charts are available only to purchasers of the Printing-Writing Monthly Report (PW2). The goal of the report is to put the state of the current industry into perspective. This is accomplished by charting inventories and days of supply for both U.S. mills and North American printers, seasonally adjusted demand (U.S. purchases), and North American printer consumption. The last two items are also combined in to one chart in order to highlight and compare the trends in both over the past 13 months. This is done for all four major printing-writing grades, and the uncoated free sheet section also includes inventory data from envelope manufacturers. This report is available in PDF and Excel format.

### **(PW11) Printing-Writing Monthly North American Offset-Opaque Report, Price: \$1,575 for PW2 subscribers; \$2,025 for non-subscribers**

This report contains data on offset-opaque paper shipments and inventory levels for North America (the United States and Canada). The report is published monthly one business day after the Printing-Writing Monthly Report (PW2). This report is available in PDF and Excel format.

### **(PW3) Solid Bleached Bristols & Bleached Paperboard Monthly Report, Price: \$1,075**

Shipments and production of bleached Bristols and bleached paperboard. This report is available in PDF and Excel format.

### **(PW4) Preliminary Printing-Writing "Flash" Report, Price: \$2,125 per year**

This report shows shipments of *the* four major grades (Uncoated Free Sheet, Coated Free Sheet, Coated Mechanical, and Uncoated Mechanical) for current month, previous month, same month a year ago and the year to date data. The report shows *actual monthly data and estimates from companies representing 91% of U.S. capacity* and is meant to give a snapshot of the trends before the total industry numbers come out in the *Printing-Writing Monthly Report (PW2)*. The report comes out on the 11<sup>th</sup> of the month. The report is *published as a PDF document*.

### **(PW5) Printing-Writing Imports by Source and Port of Entry Monthly Report, Price: \$625**

Imports for current month and YTD in tons; also dollars and dollars per ton. The report is in a convenient to use Excel format, including summary tables, pivot tables and raw data. Data from U.S. Bureau of the Census.

### **(PW16) Printing-Writing Exports by Destination and Port of Embarkation Monthly Report, Price: \$625**

Exports for current month and YTD in tons; also dollars and dollars per ton. The report is in a convenient to use Excel format, including summary tables, pivot tables and raw data. Data from U.S. Bureau of the Census.

### **(PW17, 18) Bristol Imports and Exports including Port Detail Monthly Report, Price: \$625 (for both)**

Bristol imports and exports for current month and YTD in tons; also dollars and dollars per ton. The report is in a convenient to use Excel format, including summary tables, pivot tables, charts and raw data. Data from U.S. Bureau of the Census. This report is also available in PDF format.

### **(PW7) Printing-Writing Annual Time Series, Price: \$1,800**

This report is used to evaluate long-term cyclical changes that are reflected in seasonally adjusted industry data. Includes industry shipments for various printing-writing grades and end-uses of interest. This report is available in PDF and Excel format.

### **(PW8A) Annual Uncoated Free Sheet Survey, Price: \$800 for PW2 subscribers; \$1,250 for non-subscribers**

Industry shipments of uncoated free sheet by basis weight, rolls vs. sheets and cut-size, brightness and colors. This report is available in PDF and Excel format.

**(PW8B) Annual Bleached Bristols Survey, Price: \$800 for PW2 subscribers; \$1,250 for non-subscribers**

Industry shipments of solid bleached Bristol grades by basis weight, caliper, rolls vs. sheets, finishes, method of distribution and end-uses. This report is available in PDF and Excel format.

**(PW8C) Annual Coated Papers Survey, Price: \$800 for PW2 subscribers; \$1,250 for non-subscribers**

Industry shipments of coated free sheet and coated mechanical by basis weight, rolls vs. sheets, finishes, method of distribution and method of print. This report is available in PDF and Excel format.

**(PW19) Printing-Writing Annual Statistical Summary, Price: \$1,800**

Industry shipments and U.S. purchases by grade; compared to GDP and U.S. industrial production; by end-use; method of print; and import and export data. This report is available in PDF format.

**RECOVERED PAPER**

**(PR1) Recovered Paper Monthly Report, Price: \$3,600 per year**

Domestic receipts, consumption, inventory, imports and exports of recovered paper by grade; graphics; month and YTD. This report is available in PDF and Excel format. Please note that the data for this report undergo an annual audit from February until the end of March, during which time the report is not published.

**(PR2) Recovered Paper Stock Monthly U.S. Export & Import Report, Price: \$2,050 per year**

Recovered paper exports by grade, year, month, port of embarkation and country of destination for the current and prior year; historical exports by grade, year and destination for the past 10 years; monthly U.S. imports by grade, year, month and country of origin for the current and prior year. The report is in a convenient to use Excel format, including summary tables, pivot tables, charts and raw data. Data from U.S. Bureau of the Census. This report is available in Excel format.

**(PR2EXEC) U.S. Monthly Recovered Paper Export Executive Summary, Price: \$300 per year**

This report is a 2 page PDF summary of current and trending data on U.S. Recovered Paper Exports as reported by the Census Bureau. It features total export tons by grade for the current month and the same month last year, exports to the top 5 U.S. trade partners, trend charts for the last 13 months, and comparison charts for the last 6 months and the same 6 months last year. It is only available to subscribers of the PR2 interactive report.

**(PR3) Annual Statistical Summary of Recovered Paper Utilization, Price: \$1,250**

Includes consumption of recovered paper by end use and region for the five major grade categories within the U.S. for the past 10 years; exports to the top destinations for the past 10 years and for all U.S. ports of embarkation; U.S. recovery rate and utilization of recovered paper in paper and paperboard manufacture for the past 10 years. This report is available in PDF format.

**(AFC) Annual Fiber Consumption Survey, Price: \$1,100**

Industry fiber consumption by type, including wood pulp and detailed recovered paper information. Includes consumption of pulpwood used in wood pulp manufacture, as well as consumption of recovered paper by end product. Includes figures for the past year, as well as projections for 3 future years. This report is available in PDF format.
